

360° Virtual tour all-in-one

Impress your website visitors with a 360 degree tour through your school building(s).

Easy to implement in every website and made for sharing on social media.

Our 360 photos are also fit to use in a virtual reality application. The photoshoot takes usually only a few hours and it does not influence your activities. The shoot can take place on a weekday, in the weekend or in a school holiday. The tour can already be online in only a week!

The added value of 360 degree photos and virtual tours

This way of presenting your school is very informative and creates a clear image of all the facilities this location has to offer. Your website will be visited longer and with more interest by the interaction the tour invites you to.

Click [here](#) for some examples and more information.

Above all, 360° images give you the best opportunity to let visitors experience the atmosphere and to point out the characteristics of your school.

Arranging the making of a virtual tour is easy and fast: Flitss will take care of everything for you.

The price is one-off and depends on the size of your building(s). There are no additional or periodic costs.

What is possible in a virtual tour through your school?

- Informative hotspots with video, YouTube videos, photos or text.
- Inform the viewer during the tour by a professional voice-over or add background music.
- Interactive map to show the actual location inside the building.
- Hyperlinks to a webshop or other websites.
- School logo.

Suitable for:

- Desktop
- Laptop
- Tablet
- Smartphone
- VR-glasses, these make the tour even more realistic!

Ofcourse we can use our 360 photos for a tour on Google Street View, In order to increase your visibility on Google Search and Google Maps.

FAQ

What do I need to prepare my school for a photoshoot?

You are welcome to clean up and reorganize everything before the photoshoot but it is best to show the visitors what they can expect when they visit your school on a normal day.

Can I make adjustments later?

Of course, Flits keeps all the panoramas so you can adjust things later against low costs.

Will there be recognizable persons in the virtual tour?

This is your own choice. We advise you, if you want people to be photographed, to ask them for a signed approval. It is also possible to make faces unrecognizable by blurring them.

Can I place the tour on my own website and my social media?

Yes you can, we encourage you to share this virtual experience with everyone, including new students.
